

BUILDING
TOGETHER

BUILDING TOGETHER

MESSAGE

FROM THE CHAIRMAN

For three decades, TGCC has been applying its unique combination of in-depth expertise and growth with sustained dedication and passion.

We are proud to be leaders in our industry while continuously supporting our country's economic development.

Over the years, we have relied consistently on our clear ambition and the strong values that drive each and every one of us. Together, we have shown our resilience and commitment.

We are now honoured and grateful to tell our shared story – a story in which everyone plays their part and which sheds light on the ambitious challenges and decisive changes before us.

It is more important than ever to draw on our values of quality, integrity, excellence and ambition in order to seize the opportunities ahead and leverage our expertise in Morocco and around the globe.

Our group has a wealth of human capital, with diverse personalities united around the common goal of making TGCC a benchmark for excellence. We are mindful of the contribution made by our teams, and with the launch of our training academy we are determined to make it our common cause. We aim to capitalise on the Group's assets by bringing together efficiency, competitiveness and perfection.

From now on, the future is as promising and sustainable as the values we share. Together, we will strive to create new development opportunities, open up to the world, continue to meet our stakeholders' highest standards and use our expertise to serve their interests.

MOHAMMED BOUZOUBAA
CHAIRMAN AND MANAGING DIRECTOR

ABOUT US

A MOROCCAN GROUP SPECIALISED IN INDUSTRIAL, PUBLIC AND CONSTRUCTION WORKS

A global player in the industrial, public and construction works sector, TGCC (General Construction Works of Casablanca) has been constructing residential, hotel, commercial, industrial and administrative buildings for more than three decades.

We are a national leader with more than 8,000 employees in Morocco and Sub-Saharan Africa, and have delivered more than 1,000 large-scale projects to date.

Leveraging our extensive experience and exacting professional standards, we provide services of the highest quality and use our skills to meet our clients' needs.

+8,000 employees

+1,200 machines

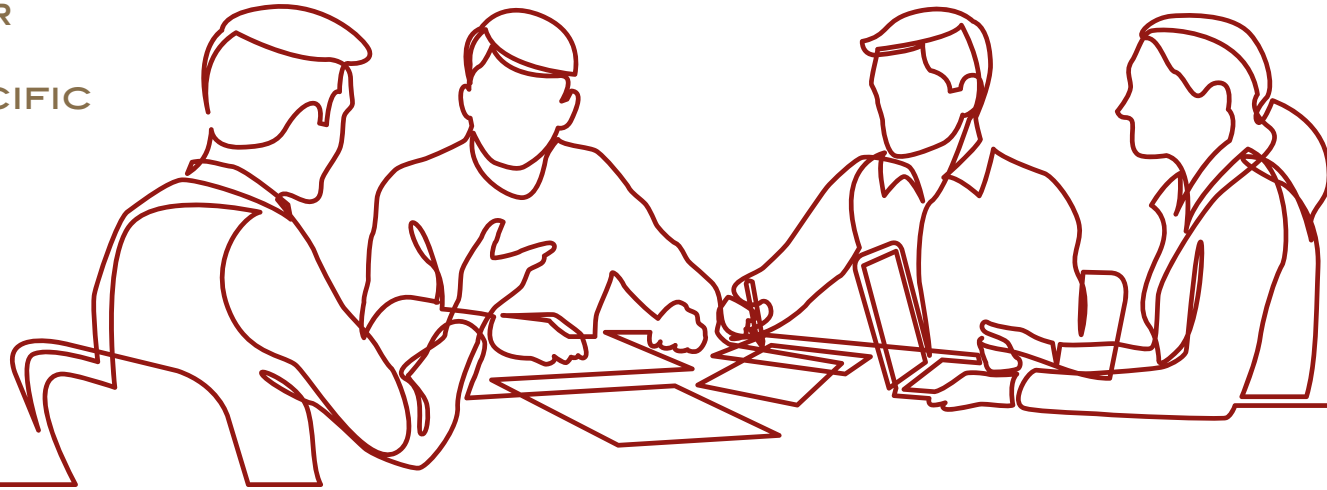

+1,000 projects delivered

OUR MISSION

DELIVER INNOVATIVE AND SUSTAINABLE
CONSTRUCTION PROJECTS

EVERY PROJECT IN OUR
PORTFOLIO HAS BEEN
COMPLETED WITH SPECIFIC
GOALS IN MIND:

Construction site safety:

We identify existing hazards on our sites as a priority and take appropriate measures, provide tailored training and continuously share relevant information with all our employees to minimise risks.

Quality delivery on time and to budget:

All our employees are committed to meeting strict standards of quality and effectiveness as well as the schedule and budget specifications of each business line and project. The overriding goal of all our activities is to satisfy customers through quality delivery on time and to budget.

Clear and transparent procedures:

To achieve the best result and stamp every project with the TGCC signature, we apply clear and transparent procedures combined with advanced and controlled management. This ensures that we meet our clients' expectations and earn their trust.

Our human capital:

Since our human resources are our greatest asset, we strive to offer employees optimal working conditions in order to help them reach their full potential.

OUR VALUES

Quality, integrity, excellence and ambition are the four core values that give the TGCC Group its unique character.

TGCC leverages its exacting standards and pursuit of excellence to rise to new and more complex challenges and help its partners and clients realise their ambitions.

A reflection of our determination to satisfy our partners and clients by delivering excellence, this drive for quality sets us apart in an increasingly competitive sector.

OUR HISTORY

A MOROCCAN CONSTRUCTION SPECIALIST

Since it was founded in 1991, TGCC has grown at the same pace as its innovative projects in Morocco and worldwide. Able to apply its expertise to increasingly ambitious challenges, TGCC is a company that is always on the move.

MILESTONES

- 1991** TGCC founded by Mohammed Bouzoubaa
- 1999** Wins its first major contract: the Fez Stadium
- 2002** TGCC awarded Class 1 status (Classification of the Ministry of Amenities, Plant and Equipment)
- 2006** Constructs three airport terminals: Marrakesh Menara, Essaouira Mogador and Tangier Ibn Battuta
- 2007** Annual turnover of more than 500 million dirhams
- 2010** Annual turnover of more than 1 billion dirhams
- 2011** TGCC celebrates its 20th anniversary
- 2013** Creation of the TGCC Gabon subsidiary
- 2014** Creation of the TGCC Côte d'Ivoire subsidiary
- 2016** Annual turnover of more than 2 billion dirhams
- 2017** Launch of the TGCC Foundation for Art and Culture
- 2018** Mediterrania Capital Partners investment fund acquires a stake in TGCC
- 2018** Launch of the Mohammed VI Tower construction project
- 2018** Awarded triple ISO certification
- 2019** TGCC records an annual turnover of more than 3 billion dirhams
- 2020** Awarded Health Risk Management certification
- 2021** TGCC floated on the stock market

OUR VISION AND OUTLOOK

DELIVERING QUALITY PROJECTS
ON TIME AND TO BUDGET

Always determined to rise to new challenges facing its market, Morocco and humanity as a whole, the TGCC Group is committed to:

- protecting the environment by adopting a responsible energy strategy, significantly reducing carbon emissions and focusing on the construction of environmentally responsible buildings
- training the Moroccan labour force in construction skills by creating the future “TGCC Academy” to share expertise, values and technical knowledge acquired in the field in order to create a pool of talent and a quality workforce
- implementing a continuous innovation process by leveraging leading-edge technology to help all clients adapt to present and future needs
- expanding our role as a global player by supporting clients worldwide, with a focus on establishing a foothold in emerging African markets, mindful of this continent’s potential

OUR HUMAN CAPITAL

Our most precious resource

TGCC's employees are our most valuable asset. Innovative and driven professionals, they provide our clients with the best possible service. Our employees empower us to build a sustainable vision of the future.

This is why our human resources policy gives priority to prevention, safety, continuous professional development, diversity, workplace well-being and respect for social rights.

It also aims to:

- offer new opportunities and career paths tailored to high-potential employees
- implement an induction process for new recruits
- create an annual appraisal system to gauge the performance and skills of each employee

TGCC benefits from skilled teams, local oversight and the support of a central unit to optimise the management of its projects.

OUR COMMITMENTS

QHSE: QUALITY, HEALTH, SAFETY, ENVIRONMENT

A robust QHSE policy

TGCC has implemented a system to improve its management based on efficient governance methodologies. The Group is committed to:

- meeting the quality requirements of our clients in relation to work and relationships
- complying with legal and applicable requirements and adopting emergency measures to ensure sustainable, safe and high-performance management
- providing employees with safe and healthy working conditions
- reducing risks and environmental impact
- developing close relationships with all stakeholders

TGCC certification

Certified to applicable standards (ISO 14001 V2015, ISO 9001 V2015 and ISO 45001 V2018) since 2018, the TGCC Group is one of the first Moroccan building and public works companies to be awarded the most recent ISO 45001 certification and is now a pioneer in the field.

This achievement reflects the Group's long-standing commitment to improve its processes continuously and enhance further the technical expertise and professional standards of its employees.

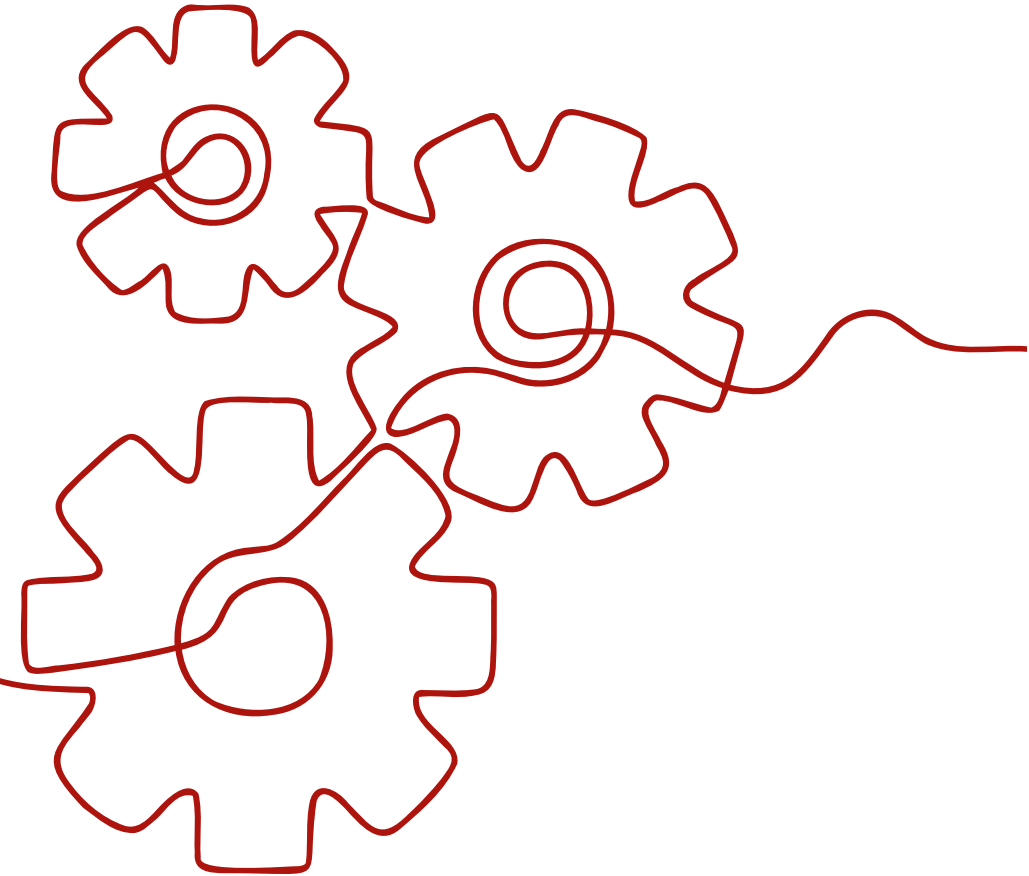

To enable further growth, TGCC works to secure its management and prevention system against major health risks by certifying it to a specialised international standard.

OUR EQUIPMENT

WE HAVE ONE OF THE MOST
ADVANCED FLEETS OF
CONSTRUCTION EQUIPMENT IN
MOROCCO

For maximum effectiveness, TGCC employs and trains a team of experienced operatives to maintain, install, operate and repair its equipment and fleet in-house. TGCC has one of the most advanced fleets of construction equipment and machinery in Morocco with more than 1,200 machines, all categories combined.

10 concrete
mixing plants

135 cranes

100 lorries of
different types

74 forklift
trucks

31 excavators

54 hoists
and cradles

more than 849 other
items of equipment

OUR GLOBAL REACH

INTERNATIONAL OPERATIONS,
LOCAL SOLUTIONS

TGCC has aspired to make the development of Morocco and Sub-Saharan Africa a priority for more than three decades.

TGCC set up a subsidiary in Gabon following a successful partnership made possible by synergies between human and equipment resources and the temporary assignment of skilled employees to work with local teams. In 2015, TGCC launched another subsidiary, in Côte d'Ivoire, to export its expertise and become a leading local actor while mindful of its commitment to deliver quality projects safely and on time.

Most recently, the creation of TGCC Sénégal in 2018 reaffirmed its ambition to become a leader in the market. In a country with strong cultural connections and proud historical ties with Morocco, this operation will create beneficial synergies for the Group and be a key driver of its development in Morocco and Senegal.

Marrakesh Menara Airport (1st phase)

OUR MAJOR PROJECTS

ANFAPLACE

- *Casablanca*

AnfaPlace is located in central Casablanca, on boulevard de la Corniche (Ain Diab). It has a surface area of 9.3 hectares.

The site brings together prestigious housing units, a Four Seasons luxury hotel, shops, offices, leisure facilities and a financial and business centre. The project encompasses:

- AnfaPlace Shopping Center: 36,000 m² of shops and dining and leisure services, and a large car park
- AnfaPlace Business Center: more than 16,000 m² of fully equipped open-plan offices with multiple layouts
- AnfaPlace Living Center contains a luxury hotel with 234 rooms, conference centre, 104 tourist apartments, 260 prestigious apartments, and more

M AVENUE

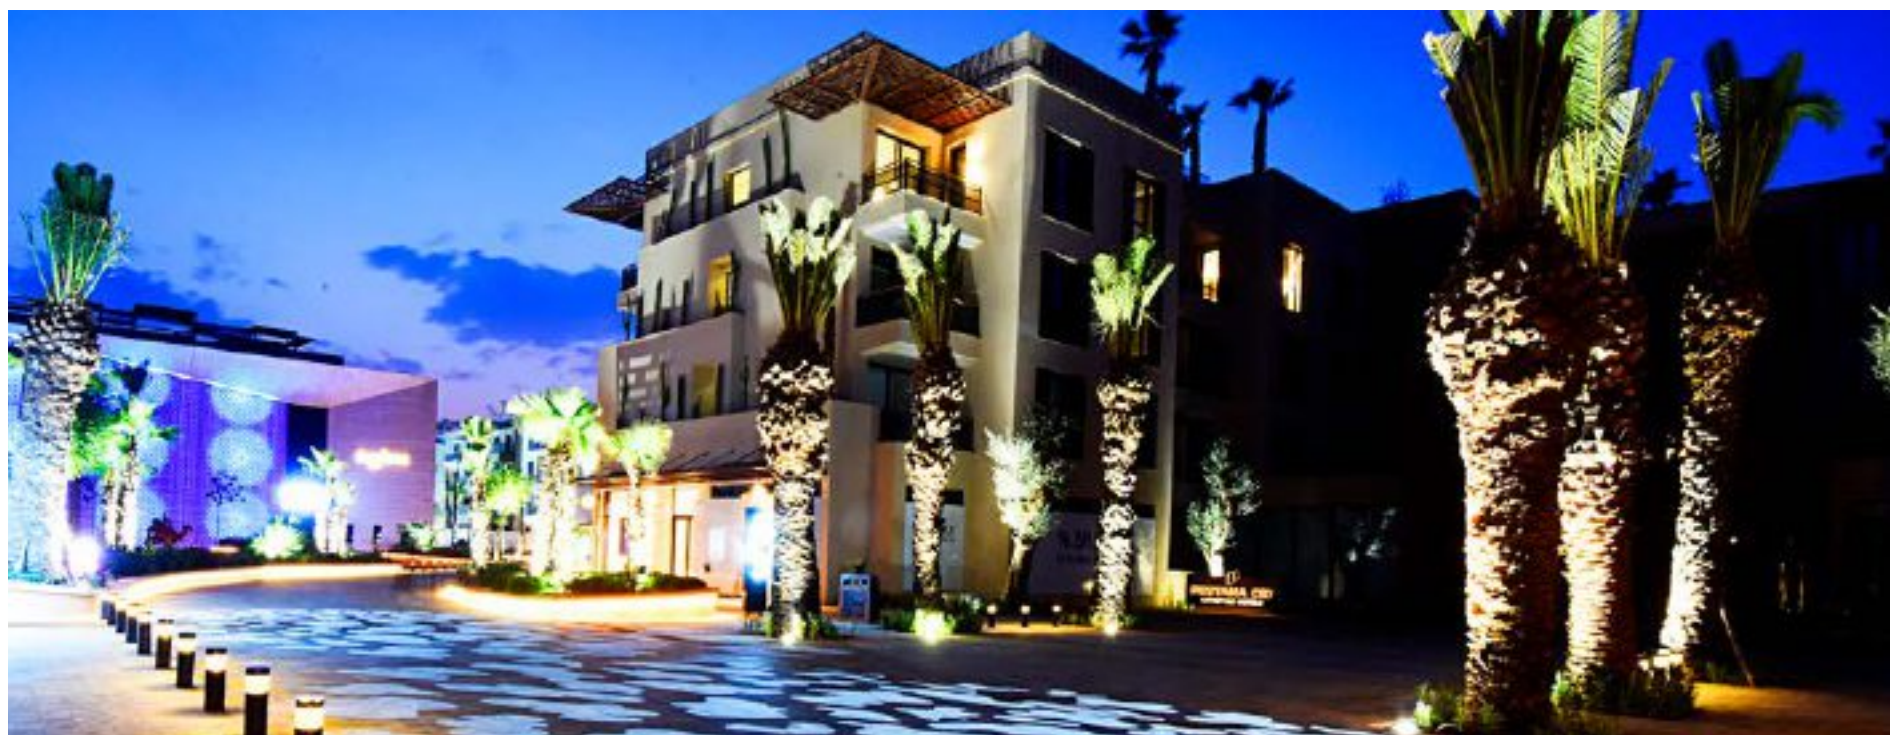

- Marrakesh

The M Avenue is a 110,000 m² project with a 500-metre-long avenue between the Jardins de la Ménara and the Palais des Congrès, via the Four Seasons.

The project comprises 96 luxury Four Seasons apartments:

- 18,000 m² of shops and businesses
- a Pestana CR7 hotel with 174 rooms
- two restaurants
- a business centre
- a spa
- 3,000 m² of offices
- 3,000 m² of exhibition and events spaces
- 2,000 m² of well-being and health facilities
- 10,000 m² of greenery

BOUSKOURA GOLF CITY

- *Bouskoura*

Bouskoura Golf City is a residential and tourist complex owned by Prestigia. It has a surface area of more than 220 hectares and comprises apartments, luxury villas, business premises and a club house on the golf course.

The project encompasses:

- phase 1: 224 villas on an 80,000 m² site
- phase 2: 46 villas on a 15,993 m² site
- phase 3: 153 apartments on a 39,300 m² site
- phase 4: 99 apartments on a 22,436 m² site
- phase 5: 108 apartments on a 22,717 m² site
- an ACIMA shopping centre on a 3,624 m² site
- a club house on a 4,028 m² site
- 136 villas in the forest city on a 37,765 m² site

TERMINAL 1 EXTENSION MOHAMMED V AIRPORT

- *Nouaceur*

The extension of Terminal 1 at Casablanca Mohammed V International Airport included the upgrading of the former passenger terminal on an all-trades basis over a 12,000 m² site (halls) and a three-floor development area (42,000 m²).

The extension is set to double the number of passengers passing through Mohammed V airport.

TANGIER STADIUM

- *Tangier*

Ten kilometres from the city centre, Tangier grand stadium has a seating capacity for 45,000 people and includes:

- athletics track
- multicoloured terrace seating

The size, scale and location of the project was a technical challenge, making it a particularly impressive achievement.

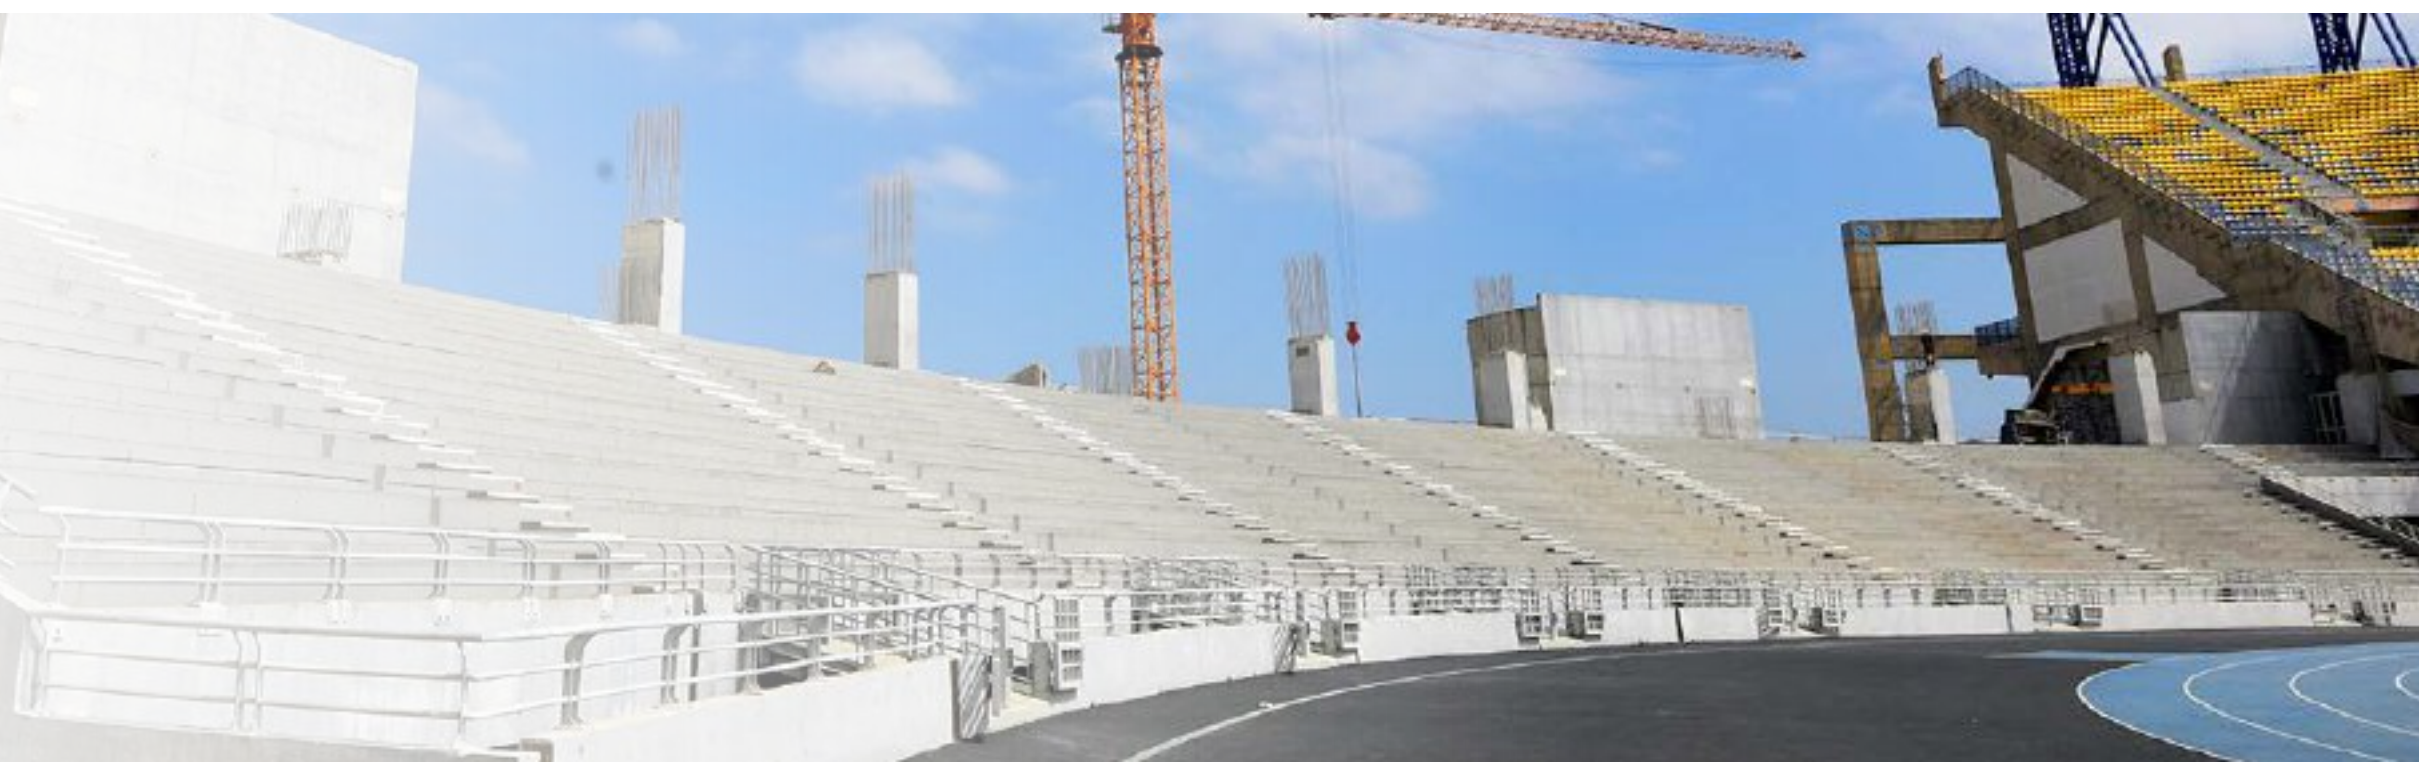

STADIUM EXTENSION

- *Tangier*

The current contract relates to construction work on an extension of the Tangier grand stadium and concerns the following trades:

- carcassing
- steel structure
- waterproofing
- flooring and walls
- suspended ceilings
- aluminium, metal and wood joinery
- painting
- external features
- electricity (high/low voltage)
- fluids

CASA PORT TRAIN STATION

- *Casablanca*

The new Casa Port train station is part of a large-scale infrastructure construction and modernisation programme designed to better serve ONCF customers and convey a modern image of Morocco. The new station replaces the former station building and is large enough to handle some 10 million passengers annually, with 5,000 passengers an hour at peak times. There are also plans to build a link to the city's future regional railway network.

The new station has a covered surface area of approximately 33,500 m² including:

- a building (ground floor + 6) for shops and businesses and 3,500 m² of office space, and two lower-ground floors for technical facilities covering an area of 1,000 m²
- a 3,800 m² esplanade
- a 7,000 m² covered ground floor
- 355 m² of ticket offices
- 650 m² of shops
- first lower-ground floor containing a shopping mall of approximately 8,400 m²
- second and third lower-ground floors with 15,500 m² of equipped space

TANGER CITY CENTER

- *Tangier*

Tanger City Center is a complex on a 236,443 m² site in central Tangier, on the city's main boulevard, close to the sea. It is a large-scale mixed-use project composed of:

- 800 apartments
- two 4- and 5-star hotels with an overall capacity of approximately 1,500 beds
- office floors with a surface area of 10,151 m²
- a shopping centre of approximately 32,000 m²

The project has several high-rise buildings, requiring the use of special equipment and the implementation of precise procedures.

CARRÉ EDEN

- Marrakesh

Located in central Marrakesh, in the district of Guéliz, with a surface area of 98,500 m², Carré Eden is a mixed-use project composed of:

- three buildings with 80 luxury apartments
- a shopping centre on three levels and a 14,000 m² retail space with a supermarket and traditional market
- a 5-star hotel with 204 rooms and a swimming pool
- a car park with 736 spaces over four levels

AGADIR UNIVERSITY HOSPITAL

- *Agadir*

Under plans to develop the Moroccan health sector, the Agadir University Hospital is being built on a 30-hectare site with:

- a covered floor surface of 130,000 m²
- a car park with 1,000 spaces
- a capacity for 864 beds
- a multi-speciality hospital:
 - mother and child (maternity)
 - technical support centre (radiology, scanner, MRI)
 - hospital admissions
 - ambulance, respectful maternity care
- residential centre

GRAND THEATRE

- *Casablanca*

The construction of the Grand Theatre of Casablanca is intended to drive the cultural and tourism development of Morocco and particularly the Greater Casablanca region.

A performance space for national and international works and shows, CasArts aims to be an engine of artistic development by promoting local productions and cooperation with other Moroccan and international cultural centres and actors.

Located on Mohammed V square in the historic centre of Casablanca, the theatre has a surface area of 24,000 m² and eight levels with:

- a 1,800-seat auditorium
- a 600-seat theatre
- a 450-seat concert hall
- a rehearsal room
- an artist's village with changing areas and services
- technical facilities
- shops and businesses
- offices

HIGH-SPEED TRAIN LINE MAINTENANCE DEPOT

- *Tangier*

The Tangier high-speed train line maintenance depot principally services a fleet of 30 state-of-the-art LGV (High Speed Line) trains.

It is the only project of its kind in Africa and spans 12.5 hectares, including 1.7 covered hectares and 10.8 hectares of external amenities (car parks, green spaces, tracks etc.).

TGV LINE

- Rabat

The Tangier/Casablanca high-speed train line project involved constructing a 200-kilometre double-rail track from Tangier to Kenitra to allow for train speeds of up to 350 km/h. The new line complies with TSI (technical specifications for interoperability) standards applied on European and international networks.

TGCC was contracted to construct the following:

- 2 landing stages, 400 metres long
- 4 road bridges
- 5 rail bridges
- 1 footbridge
- 8 hydraulic works (box culverts)

Client: Office National des Chemins de Fer (ONCF).

RABAT AGDAL - TGV STATION

- Rabat

The new Rabat Agdal train station with 23,000 m² of passenger buildings is now an engine of the capital's urban development. External amenities include 58,000 m² of green spaces, footpaths, fountains and play areas.

The contract to design and construct the new station was awarded on an all-trades basis and the project complies with the latest environmental standards. It also includes:

- offices and businesses
- a floor of cafés and restaurants
- a 12,000 m² pedestrianised esplanade covering the train tracks with six 400-metre-long platforms and 10 tracks
- an 800-space car park on a 34,000 m² site
- VIP rooms

MOHAMMED VI TOWER

- *Rabat*

The cornerstone of the Bouregreg Valley development programme, the tower is part of a riverside regeneration and promotion project and aims to provide the inhabitants of Rabat with a pleasant living environment.

The Mohammed VI tower will meet the highest international environmental quality standards and reduce stress on the environment as part of an improved designed in line with HQE and LEED GOLD certification requirements.

The tower is 250 metres tall and has 51 floors (50 habitable floors below a Mezzanine and roof deck with technical facilities, storeroom and two cradles). These floors are divided into:

- offices: GF to GF+13
- apartments: GF+14 to GF+28 and GF+47 to GF+50
- hotel: GF+29 to R+46

The tower stands at the centre of a podium with a conference centre, restaurants, spa and swimming pool for public use. The tower and podium share the basement level with a 629-space car park, 26 lower-ground spaces for bicycles and motorbikes and 63 ground-floor spaces.

HEAD OFFICE OF THE NATIONAL PROPERTY REGISTRY, LAND REGISTRY AND CARTOGRAPHY AGENCY

- Rabat

The Head Office of the National Property Registry, Land Registry and Cartography Agency is the largest administrative head office in Africa. An 80,000 m² complex in Hay Riad, Rabat, it has seven towers with seven to fifteen floors and two lower-ground floors, divided as follows:

- Tower 1: management
- Tower 2: property registry
- Tower 3: cartography
- Tower 4: human resources
- Tower 5: logistics and general affairs
- Tower 6: land registry
- Tower 7: payroll and finance

The project also includes a central mall giving access to a conference room and car parks on two lower-ground floors.
